• Iconic design inspired by architectural brutalism • Combines materials such as marble, burnished brass and fabric
• Fabric shade in a beautiful shape • The design oozes that luxury hotel feeling

The iconic Takai table lamp by Studio Mavro//Lefiżre by Sofie Lefiżre is inspired by architectural brutalism, which focuses on materials, textures and tactility. The solid, brown marble base has an intriguing shape that effortlessly carries the light fabric shade. Takai is a beautiful statement piece that invites you to look at it from many different angles. The combination of brown marble, flax linen and burnished brass creates a very soft and warm design language.

Marble is a unique natural material and therefore lines, colours and patterns may vary from lamp to lamp. This is a part of the charm of working with natural materials.
