Bring is a stylish and portable outdoor light by designers Timothy Jacob Jensen and Alasdair McPhail. Bring has a round, illuminated surface elegantly embraced by a black rubber band that also serves as a practical handle or suspension. A gentle tap enables the Moodmaker™ functionality and dims the light in two steps. An additional tap turns the light off. Long battery life and a water-resistant surface made from recycled materials makes it ideal to bring anywhere - to the beach, the park or the terrace to light up those warm summer nights with a pleasant and cosy ambience.
