Pobrano z mamadecor.pl

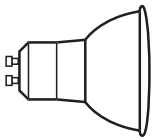

Commissioning

- Adjust the cable so it does not get snagged.
- Secure the product to the mounting bracket by locating the screws through the “L” shaped slots (C) in the ceiling cover and tightening the screws.
- Replace fuse or circuit breaker and switch on. Your light is now ready for use.

Fitting/replacing bulbs

- When changing a bulb, always switch off at the mains and allow the bulb to cool before handling. Dispose of used bulbs carefully. Do not exceed the wattage stated or use a different shape bulb from that indicated on the fitting.
- Usea soft cloth to handle bulbs, avoid directly touching the bulbs as this will shorten their life.
- Remove bulb by turning a quarter turn anticlockwise and pulling out.
- Push the bulb gently into the lampholder and twist a quarter turn clockwise to engage pins.

Max. 50W GU10

We recommend cleaning with a soft dry cloth.
Do not use solvents or abrasive cleaners as these could damage the finish.

Glass parts – Wipe clean with a damp cloth. Do not use abrasive materials as these will damage the finish.

Recycling advice

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.

Safety information

For your safety, always switch off the supply before changing lightbulbs, or cleaning.

Thank you for purchasing this light fitting. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product. Please retain these instructions for future reference.

Warning

This is a Class 1 product and must be earthed.

Please read these instructions carefully before commencing any work.

This unit must be fitted by a competent and qualified electrician.

Install in accordance with IEE Wiring regulations and current Building Regulations.

To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge.

This light fitting should be connected to a fused circuit.

If replacing an existing fitting, make a careful note of the connections.

Always use the correct type and wattage bulb. Exceeding the bulb wattage will damage the product.

When changing a bulb, always switch off at the mains and allow the old bulb to cool down before handling. Dispose of used bulbs carefully and responsibly.

This product is suitable for dimming when used in conjunction with a dimmable lamp. Please ensure verification of dimming abilities with the lamp manufacture prior to use.

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

Specification

Voltage: 240V 50Hz a.c.
Lamp: 4 x Max. 50W GU10
IP rating: 20

Layout

- Plan the desired layout of this fitting carefully, ensuring the cables will reach the distance between the junction box and the light fitting.
- Avoid locating any cables in positions that would cause a hazard. Position cables and junction boxes (not supplied) away from areas where they may be at risk from being cut, trapped or damaged.
- The mains supply cable must have a minimum cross sectional area of 1.0mm ï ¿½.
- This product must be mounted out of arms reach.
- This product has been designed with folding bars to allow different configurations and layouts to be easily achieved. To position the bars, fold them out into the desired configuration. There is no need to tighten the bars once in position. They are designed to rotate freely to allow easy operation. When installing and using this product, take care not to allow the bars and heads to collide with each other.

Spotlights give a concentrated beam of light and must not be positioned any closer than 0.5M (50cm) to the illuminated surface.

Installation

Existing fittings must be completely removed before installation of a new product. Before removing the existing fitting, carefully note the position of each set of wires.

- Undo the screws (C) holding the fixing bracket in place and set aside.
- Hold the bracket (A) in place and mark the position of the holes. Ensure that the product is level.
- Ensure the ceiling is capable of holding the weight of the product. Take care to avoid damaging any concealed wiring and pipes. Ensure there is a joist at the point of fixing to support the weight of the product.
- Fix into position.

Wiring

Having correctly identified the wiring from your existing light fitting, pull the wire through the hole and connect to the connection block inside the product in the following way:

Check that...

- You have correctly identified the wires.
- The connections are tight.
- No loose strands have been left out of the connection block.
- When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.
