SLEEK CCT

The Sleek is an energy efficient LED under cabinet style light, which is available in a choice of lengths to suit individual requirements. Boasting new Colour Changing Technology (CCT) with memory function, it allows the user to have a choice of three colour temperatures to suit their space. The shade has light diffusing technology giving a soft glow. These products can be directly interconnected together for a seamless line of light or use the link lead for corners and more flexible linking. Mains power lead available separately (code 75921).
